Profile

I am a master in software engineering with 12 years of work experience of which 5 years working as a Software Architect working with AWS Cloud technologies, and languages such as Java, Python, Java, NodeJs, JavaScript, TypeScript, Visual Basic, Cobol, Golang, CSS, HTML

I have extensive experience working in software in the banking sector from the analysis of applications to complex architectures with high resilience, where I have stood out as a natural leader, contributing to each of the teams and projects where I have worked.

Education

Master in Software Engineering, Universidad de Los Andes, Bogota, Colombia

August 2019 — August 2021

Master in Information Technology Architectures, Universidad de Los Andes, Bogota, Colombia

August 2019 — August 2021

Electronic Engineer, Universidad Francisco de Paula Santander, Cucuta, Colombia

January 2007 — December 2011

Courses

AWS Certified, Amazon

2020

Development of applications with data management in memory - Java

2018

Development of applications with graphical interface, event management, classes and Java-objects.

2018

Variables and control structures in object-oriented programming - Java

2018

Spring-framework-5 Building real web applications with Spring Framework 5 & Spring Boot: Thymeleaf, JPA, Security, REST, Angular, WebFlux

2018

Oracle-certification-associate-no-official study of the entire structure of the Oracle Certification Associate Course for learning the content of the Oracle Certified Partner Exam.

2018

Angular: From zero to expert creating applications (Angular 6+) All angular content using TypeScript and best practices offered by the angular team.

2017

Advanced Angular: Take your bases to the next level - MEAN, Google Signin, JWT, file upload, lazyload, optimizations, Git, GitHub, admin panel

2017

Database modeling with golang & postgresql Learn how to do all DBMS directly from golang to postgresql

2017

Technical knowledge

Operating systems

Linux, Windows

Programming languages

Angular, Java, NodeJs, JavaScript, TypeScript, Visual Basic, Cobol, Golang, CSS, HTML

Databases

Oracle, Postgres, DynamoDB, RedShift

Web Servers

Nginx, Apache Tomcat, Microsoft IIS, GlassFish

UML Modeling and Design

Functional Knowledge

Git, SVN, Github, Bickbuket, GitFlow
